

Caffrey International - Environmental Policy

Caffrey International is a leading provider of road transport and logistics services throughout Europe. We recognise that environmental impacts are created as a result of our activities, and that we have a responsibility to manage them appropriately.

We commit to perform our activities in a way that minimizes the potential adverse impact on the environment. This environmental policy statement is our written commitment to the protection of the environment through the adoption of the following policy objectives:

- Comply with relevant environmental legalisation, regulations and other requirements.
- Continuous improvement in the efficient use of fuel, energy, water and raw materials.
- Control waste by being as efficient as possible, by recycling and by engaging appropriately regulated and complaint waste contractors.
- Promote awareness with our employees and suppliers.
- Review and ensure continued improvement by measuring and monitoring performance.

Caffrey International is committed to providing sustainable and eco-friendly transport and logistics solutions.
